Please note that no Union business will be conducted at this meeting

The purpose of this meeting is to provide you with the information you need to understand the investment options in your Local Retirement Fund. Even if you already participate in the self-directed feature of the plan, this informative session will help you to better understand each of the investment options. You will also learn about the services provided by John Hancock Retirement Plan Services (“John Hancock”).

The following topics will be covered in the presentation:

- Investment Option Review - a closer look at each of the investment funds
- Your investment selection - understanding how to combine investments in your account
- Ongoing support - using John Hancock Participant Services via telephone and the Internet.

If you currently do not participate in the self-directed feature of the plan, **this may be your only opportunity this year** to meet the education requirement established by the Trustees to self-direct your account. Should you have any questions regarding your account, please contact John Hancock by visiting www.mylife.jhrps.com or call toll-free (800) 294-3575.

Sincerely,
