

MINIMUM WAGE:

Past, Present, and Future

Sponsored by the Hawkeye Labor Council, AFL-CIO
with the support of the Iowa Federation of Labor, AFL-CIO
Presented by the Labor Center, University of Iowa

This interactive workshop is free and open to the public. Participants will review and discuss:

Who's Helped in Iowa by Raising the Minimum Wage?

*It Might Not
Be Who
You Think*

78% are age 20 or over

43% work full time

58% are women

20% have children

On average, they earn

46% of their family's

total income

- ◆ History of federal, state, and local minimum wage legislation in the U.S.
- ◆ Data from the latest economic studies on the impact of minimum wage increases.
- ◆ Trends in minimum wage policy debates across the country.

Note: Statistics describe civilian workers age 16+ in Iowa who would be affected by an increase in the federal minimum wage to \$10.10 over three years. See epi.org/issues/minimum-wage for more details.
